

# SOLID WASTE FACILITY PERMIT

1. Facility/Permit Number:  
**37-AA-0965**

2. Name and Street Address of Facility:

SANCO Recycling  
1044 W. Washington Avenue  
Escondido, CA 92025

3. Name and Mailing Address of Operator:

SANCO Services  
224 S. Las Posas Road  
San Marcos, Ca 92078

4. Name and Mailing Address of Owner:

Jemco Equipment Corp.  
224 S. Las Posas Road  
San Marcos, CA 92078

5. Specifications:

a. Permitted Operations:

Transfer/Processing Facility

b. Permitted Hours of Operation:

24 hours

Sunday - Saturday

c. Permitted Tons Per Operating Day:

Commingled/Source Separated Materials

723 Tons/day

d. Key Design Parameters:

Total

Permitted Processing/storage area (sq. ft.)

49,205 sq. ft.

Tipping Floor Capacity (Tons)

630 Tons

Design Capacity

960 Tons/day

Upon a significant change in design or operation from that described herein, this permit is subject to revocation or suspension. The stipulated permit findings and conditions are integral parts of this permit & supersede the conditions of any previously issued permit.

6. Approval:

\_\_\_\_\_  
Approving Officer Signature

**JACK MILLER, Director**

\_\_\_\_\_  
Name/Title

7. Enforcement Agency Name and Address:

County of San Diego  
Department of Environmental Health  
Solid Waste Local Enforcement Agency  
P.O. Box 129261  
San Diego, CA 92112-9261

8. Date Received by CalRecycle:

**MAR 24 2010**

9. CalRecycle Concurrence Date:

10. Permit Review Due Date:

11. Permit Issued Date:

**SOLID WASTE FACILITY PERMIT**

Facility/Permit Number:

**37-AA-0965****12. Legal Description of Facility:**

1044 W. Washington Avenue Escondido, CA 92025; Assessor Parcel Numbers 2282507700.

**13. Findings:**

- a) A County-wide Integrated Waste Management Plan was approved by the Department of Resource Recycling and Recovery (CalRecycle) [formally known as California Integrated Waste Management Board] in September 2005. Pursuant to Public Resources Code (PRC) §50001(a)(2), the facility is identified in the City of Escondido's nondisposal facility element, which has been approved pursuant PRC §41800.
- b) The LEA has determined that the design of the facility would allow for the facility operations to be conducted in compliance with State Minimum Standards for Transfer/Processing Operations and Facilities, based on a review of the January 2010 Transfer Processing Report and an inspection conducted on January 7, 2010.
- c) This permit is consistent with standards adopted by the CalRecycle. Public Resources Code, §44010.
- d) The LEA has reviewed and considered the information, including the environmental effects of issuing this Solid Waste Facility Permit for the existing materials recovery facility for commingled and source separated recyclables. The LEA filed a Notice of Exemption on March 15, 2010 for the continued operation of this facility and finds that there are no significant environmental effects arising out of the issuance of this Solid Waste Facility Permit. A Notice of Determination will be filed with the State Clearinghouse.

**14. The following documents also describe and restrict the operation of this facility:**

	<b>Date</b>		<b>Date</b>
Transfer Processing Report	<u>Jan 2010</u>	Notice of Intent - WDID 9 37S311184	<u>Jun 1999</u>
Notice of Exemption	<u>Mar 2010</u>		

**15. Prohibitions:**

The permittee is prohibited from accepting anything other than commingled/source separated recyclable materials.

**16. LEA Conditions:**

- a) The operator shall comply with all the State Minimum Standards for solid waste handling.
- b) No significant change in design or operation of this facility shall be taken without prior application to and approval by the LEA. (Public Resources Code § 44004).
- c) Stored recyclables shall not interfere with facility operations or cause a public health nuisance as determined by the LEA. The LEA reserves the right to reduce the maximum storage time of recyclables as necessary to protect health or prevent a nuisance.
- d) If the proposed dust control measures fail to adequately control dust from the operation of this facility, the LEA may require that additional measures be implemented.
- e) The operator shall maintain, and keep current, records of the types and weights of materials received per day. These records shall include the final disposition of transferred residual waste and recycled materials. (County Code of Regulatory Ordinances §65.107).
- f) The residual waste amount is calculated on a monthly basis based on the number of operating days by measuring the outgoing tonnage after separated for reuse materials have been removed.
- g) The amount of putrescible wastes in the separated for reuse material shall be less than 1% of the amount of separated for reuse material received by weight. The putrescible waste in the separated for reuse material shall not cause a nuisance as determined by the LEA.
- h) Additional information related to compliance with this permit or the design and operation of this facility shall be furnished to the LEA upon request.
